Project On Movie Review Web Application, December 2024 - December 2024

- The website is a movie review platform built with HTML, CSS, Bootstrap, and JavaScript, utilizing Java Spring Boot for the backend and MongoDB for the database. Users can submit reviews for movies by entering their name and review text, and they can also watch trailers for the films. The site does not require user authentication, making it easy for anyone to share their thoughts and engage with movie content.
